Objective

To constantly learn and adapt according to the changing environment and contribute significantly in field of Artificial Intelligence.

Projects

Hand-written Digit Classification

- Classified MNIST dataset with over 95%+ accuracy
- Used hyper parameterization to increase accuracy

Spam/ Ham Detection

- Learnt and implemented LSTM model
- Learnt various text data cleaning techniques

Stock Market Predictor

- Learnt and implemented LSTM model
- Predicted market with 95%+ accuracy

Collaborative filtering recommendation System

- Learnt about vectorizing dataset
- Learnt various text data cleaning techniques

Education

SGH Public School (Pandori Khajoor)   **2020-2022**

Class 12 (Non- Medical) | 90.2%

Panjab University   **2022 and ongoing**

CGPA (1st Sem): 8.65

Skills & abilities

- Deep Learning
- Machine Learning
- SQL
- Data Analysis
- DSA
- Basic Reinforcement Learning
